Wedding Film Description

We ask for **5 pieces of music** you might like used in your DVD **including your first dance song**. Only two or three might ultimately be used. Having a variety to choose from is great! We also ask for a copy of **your invitation** to be included in your DVD packaging. Heirloom Pictures will request photos from your photographer for use in the DVD menu and cover.

We will also provide our couples with a questionnaire to fill out which asks questions about you as a couple, the most important details of your wedding and what you feel will be the spirit of the day. It helps us to customize your film with your own personality and style!

Your wedding DVD has a customized menu consisting of five chapters to select from.

CHAPTER ONE: PRE-CEREMONY

This chapter lasts about 5 minutes. It consists of footage from those exciting moments before the ceremony such as the bride putting on her dress or checking her make-up. You might see the groom putting on his shoes or checking his watch. This section also includes guest arriving to your ceremony and shots of the ceremony venue. This section is set to music.

CHAPTER TWO: THE CEREMONY

This chapter begins with your procession. You will see the bride enter and all elements of the ceremony that follow. It will last approximately 15-20 minutes and feature all key moments of the proceedings. Three to four cameras are used during the ceremony. This chapter contains live sound only.

CHAPTER THREE: POST-CEREMONY

This chapter consists of your photo session with your photographer (if at this time) and the moments before the reception. You will see candid shots of the wedding party and your guests at the reception venue. You will see images of your reception hall before guests enter. This section will last about 5 is to music.

CHAPTER FOUR: THE RECEPTION

This chapter begins with the wedding party introductions including you and your new spouse! Any event you may include in your reception will be documented here. We will also include a selection of shots featuring you and your guests dancing the night away! This chapter lasts 15-20 minutes.

CHAPTER FIVE: HIGHLIGHTS

Your wedding DVD concludes with a recap of your very special day such as the kiss, the cake, the smiles, and the dances. It will last the length of the song chosen.

As part of both packages, your highlights portion will be posted online and a link will be provided to you to send to family and friends.
